

Membership Meeting

When Technologies Intersect - Solar Panels & Roofing

Tuesday, May 10, 2022
1:00 p.m. – 3:30 p.m.

Arch Electric
1237 Pilgrim Road
Plymouth, WI 53073

Join us for our next Membership Meeting when we'll be visiting Arch Electric (and a nearby project site) to learn more about:

- solar installation approaches
- current financial incentives
- current technology

We'll take a **customer-based focus** to this discussion, looking at the ways that these two industries can best work together for **great project outcomes** and talk about where the rooftop solar industry is headed. Hint: It's growing!

Following the presentation, we'll **visit a nearby jobsite** (weather permitting) to continue the discussion. We're also lining up a location for **post-meeting networking** in nearby Plymouth!

Our speaker is **Andrew Holmstrom of C & I Solar Energy, which is part of Arch Electric**. Andrew is passionate about helping educate and empower local businesses to produce their own power for less than they buy it. He is a former wind turbine engineer who lives in Wauwatosa and enjoys travelling internationally, duck hunting, and spending time outdoors in any season.

In 2021, **Arch Electric ranked as the No. 1 rooftop solar contractor in Wisconsin** and No. 11 in the nation, marking the fourth consecutive year the company has received national recognition.

Join us for this special meeting!
